The recipient will use contract goals to meet any portion of the overall goal that the recipient does not project being able to meet using race-neutral means. Contract goals are established so that, over the period to which the overall goals applies, they will cumulatively result in meeting any portion of the recipient's overall goal that is not projected to be met through the use of the race-neutral means.

The recipient will establish contract goals only on those DOT-assisted contracts that have subcontracting possibilities. It need not establish a contract goal on every such contract, and the size of the contract goals will be adapted to the circumstances of each such contract (e.g., type and location of work and availability of DBE's to perform the particular type work).

The recipient will express its contract goals as a percentage of the Federal share of a DOT-assisted contract.
