

Water

Fiscal Year 2024

Revenue

Charges for Services

Revenues are forecasted based upon results of the 2023 biennial rate review, which evaluated 2020 – 2022 statistics obtained from our customer information system and evaluation of FY 2023 realized revenue.

Expenditures

Laboratory: Increase of \$10,220 due to a increase in salaries as well as materials and supplies

Operations Main: Increase of \$146,250 due to an increase in chemical expenses

Operations Industrial: Decrease of \$3,230 due to an decrease in contractors expense

Water Treatment Maintenance: Increase of \$45,000 due to an increase in salaries and benefits

Administration Services: Increase of \$183,930 due primarily to changes in bond interest

Engineering: Increase of \$45,280 due to increase in salaries and benefits

Distribution and Service: Increase of \$280,240 due to increases in salaries and benefits

Meters & Regulators: Increase of \$24,040 due to increased expenses for equipment and small tools

Debt Service: FY24 debt service expenses total \$242,600 as compared to \$130,740 in FY23

Capital Expenses

Regular Capital

Equipment and Vehicles

Shared with Gas Fund

Vehicles: 4 vehicles (including aftermarket expenses)	\$ 100,000
Machinery & Equipment: Fusion equipment	\$ 5,000

Other Regular Capital

Projects: Contractors, locators, and other materials	\$ 334,630
Meters and modules	\$ 565,990

Water Treatment Plant Regular Capital

Repairs and maintenance tanks and equipment	\$ 165,000
Repairs and maintenance of the building	\$ 50,000
Improvements to pumps, motors, and various other equipment	\$ 355,000

Projects

The following projects are included in the Water Fund:

<u>Project Name</u>	<u>Project Cost</u>	<u>Funding Source</u>
Water Line Reconstruction	\$ 3,000,000	Bonds
Water Territory Expansion	\$ 100,000	Revenues
Water Total	<u>\$ 3,100,000</u>	

City Council's Introductory - FY 2024

Capital Projects	1,000,000	100,000
Total Operating Expenses	9,685,730	9,715,040
Net Operating Income (Loss)	-652,170	-567,840
Add:		
Depreciation	1,660,660	1,494,790
Deduct:		
Debt Service Principal	130,740	242,600
Capital Expenditures from Current Operating Funds	0	0
Contribution to City's General Fund	953,300	966,300
Contribution To(From) Retained Earnings	(75,550)	(281,950)

Revenue categories for this fund are as follows:

REVENUE – USE OF MONEY/PROPERTY: This revenue category includes: **Interest on Investments** - All of the City’s funds are invested in secured accounts in an attempt to earn the highest possible return. Investment earnings are a function of the money marketplace and swings in the revenues reflect higher or lower interest rates. **Sale-Salvage and Surplus Property** - This revenue represents the sale of surplus vehicles and equipment and funds received from the sale of scrap metal. This category also includes income from the lease of antennas attached to water towers.

CHARGES FOR SERVICES: This revenue category include consumer fees and is the major revenue source for the Water Fund. The residential customer class is the largest part of the water fund with approximately 15,000 customers. The commercial customer class represents approximately 2,198 customers and the industrial customer class represents approximately 35 customers. The municipal customer class represents charges to the City for its municipal facilities. Other revenues in this category include penalties for non-payment and reconnection fees and charges for commercial, industrial, and municipal fire lines.

The water consumption charge is being proposed to change in FY24 from \$2.50/100 cubic feet to \$2.55/100 cubic feet to increase revenue for pending water capital projects and as recommended in the 2023 biennial rate study. The water fund has a long-term capital project to replace obsolete water mains, primarily cast iron, with new polyethylene mains. The goal is to increase reliability by decreasing the number of water main breaks and related outages.

MISCELLANEOUS REVENUE:

Miscellaneous revenue includes fees charged to customers who request modifications to their services and revenue for damages from third parties to property and equipment.

	FY 2021 Actual	FY 2022 Actual	FY 2023 Adopted	FY 2024 Introductory	Increase/ (Decrease)

Description

The Water Fund's mission is to provide reliable high-quality drinking and industrial process water at the lowest cost possible while complying with all local, state, and federal laws, regulations, and standards. The City has owned and operated a potable supply system since 1876. Danville water system includes 334 miles of main and 17,943 water meters. The administrative division of water distribution provides leadership to over 40 employees who work within water distribution, service, engineering, and metering.

Description

Water Engineering performs complex work managing the design, planning, and coordination of projects to ensure reliable, safe and efficient operation of Danville’s water system. This is accomplished by managing projects for new main and service installations, main rehabilitation, economic development, roadway construction and relocations; performing system testing and calculations for adequate capacity; reviewing plans and engineering work performed by consultants and interpreting and implementing regulations related to construction of the water distribution system. In addition, Water Engineering maintains and supports the Water Geographic Information System and provides technical support to operations groups in the areas of measurement, asset management, valve maintenance and unidirectional flushing

The Utilities Pipeline Technician position title was previously Motor Equipment Operator. The position title change became effective in FY 2023 and had no budgetary impact.

Description

The Water metering and regulator division is responsible for the maintenance, operation, and installation of the automated meter reading modules and the physical meters. The team tests, calibrates and removes or installs all water meters in the distribution system. The group is responsible for meter disconnects and reconnections, and investigations.

Description

The purpose of the Capital Improvement Program is to ensure the orderly expansion, modification and repair to the water distribution system for improved customer reliability, to allow future growth, and improve operational efficiency. This mission is accomplished by systematic construction and/or modifications to the distribution system.

Expenditures

The decrease in Capital Projects reflects the proposed grant funding from the Virginia Department of Health for the Reservoir project and water main replacement project.

	FY 2021 Actual	FY 2022 Actual	FY 2023 Adopted	FY 2024 Introductory	Increase/ (Decrease)

Description

The Division of Water Treatment is responsible for water supply and treatment including operation and maintenance of raw water intake facilities, the potable water treatment plant, industrial water treatment plant, water booster stations, and water storage facilities. In 1966, the City added an industrial water system to serve the Goodyear Tire & Rubber plant and the City's wastewater treatment plants.

The Water Treatment Plant is designed to purify up to 18 million gallons per day, but currently operates at approximately 6 million gallons per day.

**CITY OF DANVILLE
PROJECT DESCRIPTION
FY 2024 FIVE-YEAR CAPITAL & SPECIAL PROJECTS PLAN**

Project Title: Water Line Reconstruction **Department:** Utilities
Project No: 60053 **Division:** Water & Gas
Section: Distribution (Water, Gas, and Electric)

Description:

The City has 331 miles of water main in the system. More than 144 miles are cast iron and another 8.6 miles are galvanized steel. More than 34 miles of the cast iron are 80 years old or older. Cast iron mains typically fail due to their brittle nature. Funding for replacement will allow for planned, non-emergency, systematic replacement of these mains with an opportunity to improve water quality, fire protective services, and system reliability.

Justification:

Study: Water Distribution Hydraulic Study
Updated Master Plan from FY22.

Comments:

Funding through the Virginia Office of Drinking Water may be available in the form of principle forgiveness and/or loans to help accelerate the replacement of cast iron and galvanized water mains throughout the City.

Funding Sources:	<u>Prior Years:</u>	<u>FY 2024</u>	<u>FY 2025</u>	<u>FY 2026</u>	<u>FY 2027</u>	<u>FY 2028</u>	<u>Total</u>
Bonds	\$2,000,000	\$3,000,000	\$3,000,000	\$3,000,000	\$3,000,000	\$3,000,000	\$15,000,000

Goals/Milestones:

- FY 2024 Replace 3 miles of water main
- FY 2025 Replace 3 miles of water main
- FY 2026 Replace 3 miles of water main
- FY 2027 Replace 3 miles of water main
- FY 2028 Replace 3 miles of water main

**CITY OF DANVILLE
PROJECT DESCRIPTION
FY 2024 FIVE-YEAR CAPITAL & SPECIAL PROJECTS PLAN**

Project Title: Water Territory Expansion **Department:** Utilities
Project No: **Division:** Water & Gas
Section: Distribution (Water, Gas, and Electric)

Description:

This project is to expand the City's water system to include areas inside the City limits that are not served by a public water source. The initial focus would be to expand to the Vandola Road, Luna Lake, Elizabeth Street, and Holland Road areas first. These areas are served by well systems.

Justification:

The purpose to provide a reliable and clean source of water to all City residents. This project would utilize the Virginia Department of Health's and federal infrastructure plan to expand water infrastructure to approximately 200 homes where otherwise it would be cost prohibitive.

Comments:

Funding Sources:	<u>Prior Years:</u>	<u>FY 2024</u>	<u>FY 2025</u>	<u>FY 2026</u>	<u>FY 2027</u>	<u>FY 2028</u>	<u>Total</u>
Utility Fund Revenues	\$0	\$100,000	\$100,000	\$100,000	\$0	\$0	\$300,000
Project Totals:	\$0	\$100,000	\$100,000	\$100,000	\$0	\$0	\$300,000

Goals/Milestones:

- FY 2024 Complete Vandola Road extension.
- FY 2025 Complete Holland Road and Indian Valley Road water extension.
- FY 2026 Complete Elizabeth Street and Blue Jay Street water extension
